CROWN & SULTANATE ADD-ON SPRUE

Above is the Add-On Sprue for **Crown** and **Sultanate** factions. These are added to sets to give extra turret and generator options.

Indicated in **dark grey** are the **Crown** specific parts, in **green** the **Sultanate** parts and the remaining parts are universal for all factions.

Assembly instructions will include **heavy** (H) and **light** (L) icons to indicate positions of **hardpoint** options. When presented with these icons consult the specific faction's ORBAT for information on **WEAPONS** and the **UNIT PROFILES** for specific model's weaponry *(click the above links for their destinations).*

It is recommended these turrets are not glued in place, so they can be switched out between games.

Oben ist der zusätzliche Gussrahmen für die Fraktionen **Crown** und **Sultanate** zu sehen. Er wird den Sets beigelegt, um zusätzliche Optionen für Geschütztürme und Generatoren zu bieten.

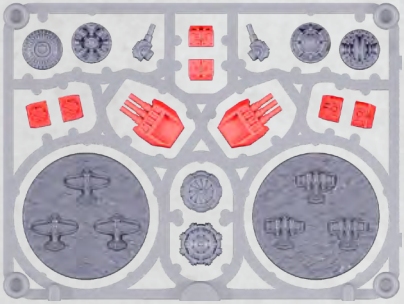

Dunkelgrau markiert sind die spezifischen Teile für die **Crown**, **grün** die Teile für das **Sultanat**; die übrigen Teile sind für alle Fraktionen universell verwendbar.

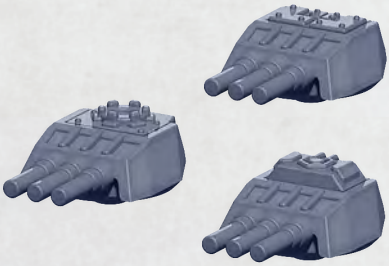

Die Montageanleitung enthält Symbole für **schwere** (H) und **leichte** (L) Waffen, die die Positionen der **Aufhängepunkte** anzeigen. Wenn Ihnen diese Symbole angezeigt werden, konsultieren Sie die jeweilige ORBAT der Fraktion für Informationen zu **WAFFEN** und die **EINHEITENPROFILE** für die Bewaffnung des jeweiligen Modells *(klicken Sie auf die obigen Links, um dorthin zu gelangen).*

Es wird empfohlen, diese Geschütztürme nicht festzukleben, damit sie zwischen den Spielen ausgetauscht werden können.
