DIGITAL SCULPTOR REQUIRED

Warcradle Studios are looking to expand their miniature design and sculpting team with a creative and focussed Digital Sculptor to work in our head office located just outside of Southend in Essex.

You'll be involved in the concept and development stage of miniature design as well as using your skills to help bring those concepts to a finished product. The candidate will need to demonstrate their experience and skills with digital sculpting and design using either zBrush or Freeform software.

Salary range is up to £21,000 for a full-time position. In addition to this competitive salary, this full-time position offers the opportunity to be part of a growing and creative games studio with exposure to not only the industry but also to other aspects of the development process as part of that team.

You will be rewarded with 28 days holiday per year, a wide range of staff perks such as great discounts as well as significant opportunities for the right individual.

If, after reading the Requirements and Ideal Candidate details overleaf, email us your CV along with a brief outline of what you would bring to the role to: jobs@waylandgames.co.uk

A Suitable Candidate Would Be Required To Demonstrate the Following Abilities:

- Significant experience with using zBrush or Freeform software for 3-D design
- Ability to interpret concepts supplied both visually and verbally and translate that into a digital 3-D model.
- Familiarity with using 3-D printers to realise designs.
- Liaise with the Production Manager and Senior Digital Sculptor to develop the designs so that they are fit for production.
- To use their artistic skills to restore or redevelop damaged or third-party digital sculptures.
- The skills to liaise with writers and publishers to realise their designs as a 3-D sculpture.
- The ability to work in a logical, systematic manner with an attention to detail to ensure high levels of quality.
- The capacity to grasp concepts easily with a proactive approach to problem solving.
- The ability to work under pressure and motivate others to meet tight deadlines.
- The ability to communicate clearly and persuasively both with peers as well as managers and third parties.
- Monitor product standards and implement quality-control programmes.
- Is more than capable of working on multiple projects simultaneously and prioritise work as directed by the needs of the business.
